

CHURCH ACTIVITIES & OUTREACH

Adventure Activities

Does your organisation offer adventure activities or do you organise trips to activity centres?

Please note you should not expect liability insurance to be provided for your organisation for dangerous or hazardous activities, you should contact your church insurance provider for advice.

Check with the adventure activity provider that they have suitable liability insurance. Ensure that you are happy with the safety precautions, the standard of equipment used, first aid facilities and that they can cope with any special needs of your participants.

It may be prudent to contact your local Safeguarding Authority if you are unsure of how best to protect children's safety, or the national organisation / regulator for the proposed activity in order to confirm the credentials of any third party provider you may consider using.

You will need to check with your insurer if you need liability insurance for such activities
